MANHATTAN BUSY CAMP; RESULTS SATISFACTORY

Numerous Properties Are Being Operated and More Will Soon Be Active

The Manhattan district is showing a great revival, although nothing in the sensational line has been reported. Numerous properties are operating with satisfactory results. The district promises to be one of the busiest in southern Nevada from now on.

The Manhattan Magnet has the following report that is gratifying to property owners not only of that district but to the entire state.

"Another mining has been made at the War Eagle by Messrs. Connor, Kane, Powers and Verras, tributaries on the April Road. It consisted of 194 tons and was better grade than that previously run.

"Thomas Wilson, familiarly known as 'Dry Wash,' is again conducting extensive placer operations at Round Mountain. He expects to also resume at Manhattan in the near future.

"Preliminary work is being conducted by Charles A. Stoneham on the Kanrohat property in Jefferson canyon, which he recently bought for half a million dollars.

"Fred Mitchell is placing his lead-silver property on north Twin on a producing basis. The ore is being packed down the mountain to end of the auto road.

"Owing to the recent rains, tail sweeping has been suspended on the Eagle points. The showers, however, will prove a blessing in disguise, as capillary attraction will bring the values more rapidly to the surface."

"On the 920-foot level 235 feet of crosscutting and drifting was done. This work exposed a body of ore which has only been partly developed and indicates values approximately the same as on the 800-foot level. Having proven the continuity of the east ore body to this level, it was deemed advisable to discontinue all mining operations until after milling operations were resumed.

"Accordingly, your mining machinery has been overhauled and such work is now in progress as to adapt it to your metallurgical process for the extraction of the gold values. ARABS OBJECT TO PALESTINE NEW MANDATE

Executive Congress Pass Series Of Resolution Opposing Great Britain Plans

JERUSALEM, Aug. 16.—The Arab congress executive, looking forward to carrying on its opposition to the granting to Great Britain of the Palestine mandate, met in Jerusalem today and passed a series of resolutions. Some of these provided for continued agitation against ratification of the mandate; others considered a course of action in case the mandate were approved.

The council of the league of nations formally approved the Palestine mandate to Great Britain and the Syrian mandate to France in London July 24, more than three weeks after this letter from Jerusalem was written. The earl of Balfour, in outlining Great Britain's policy in Palestine before the council, said this would be one of strict impartiality and justice, in which all traditional rights, sentiments and religious feelings of the different racial groups would be respected and held inviolate.

Among the resolutions are the following: If the mandate is ratified in its present form the executive will ask the delegation in London to return so as to start operations on the spot against the government. That a Moslem delegation be sent to Mecca to carry on propaganda among the pilgrims from India, Turkey, Persia and Egypt for the realization of the Arab demands. That a Christian delegation be sent to the Vatican in Rome to carry on the same propaganda in the center of the Catholic world.

Commenting on the situation, Jamal Effendi el Hussein, the secretary of the Arab executive, said: "The world in general, and in particular Great Britain, must realize that the spark of liberty and independence still burns in the heart of every Palestinian. We would rather shed the last drop of our blood in the struggle for freedom than spend the rest of our lives as the slaves of the Jew in our beloved land."
